

## 10.8 Lock the Gate

### Why AirFair®?

- Cities under the JWA flight path have done their fair share of absorbing the impact of Orange County air traffic.
- Orange County has already decided “*Parks Not Airports.*”
- Cap adjudicated by JWA Settlement Agreement on number of passengers expires 2015.
- Curfew expires 2020.
- Jets, arriving and departing, now number 365 daily (includes 101 private jets and 11 commuter jets.)
- Only 85 jets and 4 cargo jets are currently classified as noisy; the remainder are EXEMPT.
- About 900 daily operations at JWA make it one of the nation’s busiest airports

*“Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has.”*

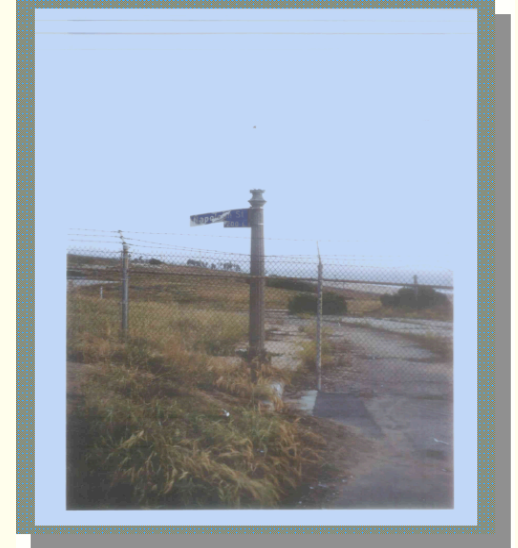

*Margaret Mead*

### AirFair Accomplishments

- Made presentations to homeowners associations, city councils, organizations and civic events that lie under the JWA flight path
- Developed a large list of supporters
- Worked closely with city governments
- Contacted city, county, state and federal officials, both elected and appointed
- Published five newsletters
- Conducted community forums to educate residents about aviation and transportation issues
- Attended local, state, and national meetings having to do with JWA issues as well as aviation and airports in general

AirFair, a grass-roots community organization with members from the cities of the John Wayne Airport flight corridor, has as its sole purpose the containment of the airport.

As a group of concerned citizens, we are alarmed by the chronic pressure to expand John Wayne Airport and are working to insure that the current limit, 10.8 million airline passengers per year, will become permanent.

AirFair wants to create a powerful force of individuals, groups, businesses and elected leaders who agree that regional transportation needs must be met without further expansion of John Wayne Airport!

## Why AirFair®

**AirFair's Mission:**  
Stop expansion of John Wayne Airport.

**AirFair's Goal:**  
To slowly and deliberately raise the level of discourse about permanent flight and passenger caps and curfews at JWA in order to accomplish political change.
